

Simpson makes keeping cool EZI

Simpson's affordable compact side by side fridges have arrived! Offering an impressive 610L storage capacity, they're designed to fit comfortably into a 900mm wide by 600mm deep* space – a common cavity size that has traditionally been too small for a side by side refrigerator.

The generous 610L internal storage has been optimised for New Zealand lifestyles, taking the hassle out of unpacking groceries. You'll love the flexible interior, with 12 adjustable fridge shelf positions, generous freezer space with ease of access, plus wide, repositionable door bins that easily store family-sized 3L cartons and soft-drink bottles, or even a six pack of beer. The choice of fridge is EZI.

*600mm depth excludes the doors as they are designed to sit proud of the cabinetry

Metro silver finish

With an eagerly sought-after, contemporary appearance and mark-resistant surface, Metro Silver provides the desired look without all the hassle. Your refrigerator will always look great without you having to worry about continually wiping off annoying fingerprints and other marks. It's just the type of thing you expect from Simpson – quality kept simple.

Life can be complicated enough but your kitchen and laundry needn't be. No-fuss appliances that know their place and get the job done quickly and efficiently are the way to go. And that's the Simpson approach too... reliable, thorough, unpretentious and with back-up that means no head aches in the future. There are more important things in life than doing laundry, so trust Simpson to get the job done.
